

Renew Items via Text Alerts to your Cell Phone!

All you do is login to your library account at www.alisweb.org & click on “Modify Personal Info” and enter your mobile number (include area code). Click to “Opt-in” check the box and submit!

When you receive a courtesy text message on your cell phone, you can reply to that text message with the word RENEW (capitalization not required).

The system will attempt to renew all of your items and one of two messages is then returned to you:

- a. Your items could not be renewed (if no items are eligible for renewal)***
- b. (x) of (y) items were renewed (if some or all items are eligible for renewal)***

Some items not eligible for renewal are overdue items, items with holds waiting, or items already renewed up to their limit. Patrons who owe fines for previously returned materials may likewise be ineligible to renew materials using this feature. Should you wish to pay fines via Ecommerce, please visit ALISweb.org, log in to your account, and click on "unpaid fines and bills".
